## River Adur Estuary Walk led by Dr Geoffrey Mead

10am – 12 noon meet outside Ropetackle Arts Centre from 9.45am

This walk will look at the influence of the river on the town; starting at Ropetackle we head north to the Old Shoreham Bridge. Crossing the footbridge we can see how the river has created the wide Adur valley over time. Back south along the new embankment and past the airfield, we then follow the riverbank beside the houseboat colony. Taking a short detour onto the shingle beach we can note how the movement of the pebbles has influenced Shoreham's fortunes, before returning to town across the Ferry Bridge.

Geoffrey is a geographer and specialist in local geology and social history. He is an emeritus tutor at Sussex University, and runs popular guided walks and talks on the Sussex landscape.

## Bungalow Town

Plotlands, shanty towns and 'scattered squalor'.

A talk by Dr Geoffrey Mead about the development of Shoreham Beach.

## Ropetackle Arts Centre.

7.30pm

During the early 20th century, the acute UK housing shortage saw a range of informal settlements spring up on largely marginal land, offering a range of housing opportunities. Ex-army huts, redundant railway carriages, old tram cars, bus bodies and even a WW1 bomber (minus wings) served as makeshift housing. Local authorities, especially the rural district councils such as Lancing, Steyning, Chailey and Newhaven were largely powerless to stop this tide of low-quality accommodation... Shoreham, of course was different! The development of Bungalow Town from the late 19<sup>th</sup> century mirrored other such UK communities, but with a more exotic twist.

Panellists: **Katy Balls** (The Spectator), **Stephen Bush** (The New Statesman), **Anand Menon** (Director of The UK in a Changing Europe)

### The Shoreham Centre

7.30pm

This year sees Britain 'standing at the crossroads'. We face a raft of issues all of which are likely to have a significant impact on our politics. The most immediate is the pandemic and its after-effects on almost every aspect of our lives. Then there is the growing reality of Brexit and how it will affect our economy and our politics, particularly its likely impact on the Union; all of this against a background of the climate emergency. And finally, a rapidly changing political environment in which traditional dividing lines have all but disappeared. Plenty for our panel, who come from a wide range of political perspectives and bring experience of journalism, academia and think-tankery, to get their teeth into.

## Jane Austen At Home

featuring Emerald O'Hanrahan as Jane

### St. Nicolas Church

*Jane Austen at Home* is a one-woman show, consisting entirely of Jane Austen's words it celebrates the variety and wit of her writings, with extracts from her memoirs, letters, juvenilia, poetry and novels.

Our setting for the show is particularly appropriate as Jane would certainly be familiar with St. Nicolas Church when visiting her cousin, who lived in Buckingham House in Old Shoreham, when she was staying in nearby Worthing.

The show is performed by Emerald O'Hanrahan, an experienced theatrical actress and the current voice of Emma Grundy in Radio 4's *The Archers*.

## The Amazing Story of a Travelling Bear Called Ed

– family show

### Ropetackle Arts Centre

10.30am

In 2009 a tiny bear called Ed departed Shoreham and headed off across the sea on what became an immense journey for this little bear of small stature. Concerned about the possible impacts that climate change and other global threats might have on his beautiful floral beach at Shoreham, Ed headed off to see for himself and how we are all connected by the ocean.

While Ed the Bear is a fictional character, his experiences in this story are all real, the places he visits, and the wildlife and people encountered on the way. It is a story that is sometimes amazing, sometimes funny, and occasionally sad but above all it is a celebration of the wondrous one ocean.

**Family friendly event for all ages.**
